

# surpHace pHresh CONCENTRATE

## WHEN **FOOD SAFETY** MATTERS...

**surpHace pHresh CONCENTRATE** is a high performance sanitizer/disinfectant for hard surfaces in food processing and pet food manufacturing areas and is proven effective against pathogens such as *Salmonella enterica* and *Listeria monocytogenes*... some of the most common and problematic pathogens encountered in modern day food processing operations. All of our ingredients are recognized by the United States FDA as GRAS (generally recognized as safe) for inclusion in food products, which makes it safe to use on direct food contact surfaces. **surpHace pHresh CONCENTRATE** incorporates an emulsifier to aid in fat and oil breakdown for maximum efficacy in a variety of environmental conditions. **surpHace pHresh CONCENTRATE** is very economical with a dilution ratio of 1 part concentrate to 10 parts water and is offered in a range of sizes from 5 gallon pails, 55 Gallon drums, and 260 Gallon totes
