

FIDO'S FOOD SHOULDN'T BE THE REASON HIS FAMILY GETS SALMONELLA POISONING

Protect hard-to-clean areas against pathogens and bacteria that can make their way into wet and dry pet food.

Proven effective against *Salmonella enterica* and *Listeria monocytogenes*, **surpHace pHresh Concentrate** is a high performance disinfectant for hard surfaces in food processing and pet food manufacturing areas. All ingredients are recognized by the United States FDA as GRAS for inclusion in food products making it safe to use on direct food contact surfaces.
